### Weekly Sunday Services (Nitschke, room 1027; Sunday, 6 PM)

The center of our ministry is our weekly service with communion. Join us for services and bring your talents with you. Do you play an instrument? Sing? Chant? Like reading in church? Currently we meet at Nitschke room 2027 for services at 6 PM.

### Weekly Bible Class (Field House; Mondays, 7 PM; rooms as available)

One of the highlights of our ministry has been weekly Bible class. Great topics and discussion, along with a pot of coffee, has led to many a study going late into the night. Join us for discussion of how traditional Christian doctrine applies to a host of relevant issues.

### Engineers in Christ (North Engineering workshop and on location; Thursdays and Saturdays; et. al.)

Engineers in Christ is the service project arm of our ministry. Do you like to work with power tools, build things, and use your skills to serve others? Engineers in Christ does it all. We currently have a lineup of projects waiting for our attention: remodeling bathrooms and rooms, framing, dry wall, electrical, plumbing; we will also be building a miniature golf course for inner city children in Toledo's Junction Community. And at the end of each academic year, we take our trip to the Appalachia for service projects like building handicap ramps.

Every Thursday Engineers in Christ meets in the North Engineering building (7 PM) to train in basic remodeling skills like wiring, dry wall, and plumbing. You will learn these skills and take them with you the rest of your life. Most importantly, these are skills you can use in service to others as you live out your Christian love. (Think of the great engineers in Scripture, Noah the ark-builder, Solomon the temple-builder, Paul the tent-maker, and of course, Jesus the carpenter!)

### Put these events on your calendar!!!

#### August 23, Freshmen Reception

6 PM Church service (Nitschke, Rm. 1027)  
7 PM Reception, pizza, fun activities, and information for incoming freshmen

#### August 30, Cookout at the Q
