2015 Summer Schedule for UT Students

Engineers in Christ Projects

During the course of the summer we will be working on two definite EIC projects, plus possibly beginning a few others.

Moore House Project

The first project is to complete our Moore House project. We still have to put up dry wall and paint. Dates for work on this project will typically be on Mondays, Fridays, and Saturdays, pending on class schedules, Pastor Burfeind's schedule, and the Moore's schedule. To get the latest info on what's going on at the house, text Pastor Burfeind at (419) 324-5535.

Swanton House Project

Another opportunity we have is through a alum of UT Engineering, Tom Merkle, who has recently bought a property out in Swanton. He has donated generously to EIC and will again, possibly even allowing us use of the property we will be working on for retreats and outings.

This summer he is planning to remodel his bathroom. Work on this project will be during the week after July 4. Stay tuned and text Pastor Burfeind about times/places for work on this project.

Possible Projects

We have several opportunities in Junction Community "brewing." We will possibly be given two houses to work on for our own usage, including one to be used as a EIC house, and the other to be used as a mission site.

Also, we will be given several vacant lots to work on, building a miniature golf course,

confidence course, or educational park.

As these opportunities become available, we will need "all hands on deck."

Sunday Divine Service

On campus services have been suspended for the summer, but there are 10: 30 AM services at Good Shepherd Lutheran Church, on Laskey Ave. between Secor and Talmadge (3934 W Laskey, Toledo, OH 43623.)

Also, Pastor Burfeind will host several services at 8: 30 AM during summer at Good Shepherd.

Holy Cross Lutheran Church and Student Ministry Leadership

As a Registered Student Organization, Holy Cross Lutheran Church and Student Ministry needs to have regular meetings. We especially need to plan next Fall's calendar so that we have something to offer incoming students.

This should be an exciting time for our ministry, to plan opportunities for new students and expand our program.

Here are a few of the things we need to discuss:

- (1) Training events for Engineers in Christ
- (2) Service projects
- (3) A fall retreat
- (4) Service times and Bible study topics
- (5) Communication and marketing

The first Monday of each month is a potential time for meeting, pending schedules of interested students.
